***Response to Amendment***

1. The amendment received 4/26/07 has been entered in full.

***Response to Arguments***

2. Applicant's arguments, see pages 10-11, filed 4/26/07, with respect to the claims have been fully considered and are persuasive. The rejection of the claims has been withdrawn.

***Allowable Subject Matter***

3. Claims 1-20 are allowed.
4. The following is an examiner's statement of reasons for allowance: As persuasively argued by the Applicant none of the prior art of record discloses a multi-modality system or method using virtual cursors comprising: receiving a user cursor position for a location in a two image dataset and calculating a shadow cursor position for a location in the three- dimensional image dataset, the shadow cursor position corresponding to the user cursor position and the calculating including a correction for the magnification factor corresponding to the shadow cursor position for the slice of interest; and outputting the shadow cursor position. As this limitation is present in all of the independent claims they are all allowable for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
